

## Secure All Loads!

**“Escaping Loads Make Dirty Roads. Tarp It, Bag It, Tie It, Strap It.”**

Per State Law:

- Items blown from the back of trucks are considered litter.
- Unpermitted disposal of C&D waste in an unregulated area is considered illegal dumping/littering.
- Littering is punishable by fines, community service and possible jail time.
  - TN—Fines up to \$2,500, up to 160 hours public service or possibly 12 months in jail.
  - KY—Fines of up to \$500

- In TN, 70% of litter on highways is negligent litter from unsecured loads and costs \$11,000,000 annually to clean up.
- In KY, litter clean up costs the state \$5,000,000 and 200,000 worker hours annually.

## Regulations

**ACSIM Policy: Sustainable Management of Waste in Military Construction, Renovation, and Demolition Activities (11July2006)**

Government salvageable materials shall not be transported off the installation without approval from/through Contracting Officer Representative (COR) and Environmental Division.

Salvageable materials shall be disposed of per contract specifications. If salvageable materials are transported off the installation, the contractor shall provide the project COR with the following: type of material (s), method of disposal, and weights of material (s).

All C&D materials, which are acceptable for disposal at the Woodlawn Landfill, shall not be removed from the installation.

Personnel/contractors violating government property disposal/diversions policies/practices are subject to potential debarment, suspension, ineligibility and prosecution under FAR. Improper Disposal (burning, dumping, use as fill, improper burial & disposal in water, etc) of C&D waste is punishable & can result in fines.

## Fort Campbell C & D Waste

**Deconstruction**

**For assistance call:  
(270) 798-9773  
Or  
(270) 956-2468**

**Demolition**

# What is C&D Waste?

C & D Waste is material generated during the construction, renovation and demolition of buildings, roads, & bridges. C&D debris often contains paints, varnishes, epoxy resins, glues & other chemicals that can enter the groundwater. Person's improperly disposing of C&D waste will be held responsible for cleanup of waste and any contaminated soil or water. C&D debris includes:

- Concrete
- Lumber
- Asphalt
- Gypsum
- Metals
- Brick
- Glass
- Plastics
- Salvaged building materials (doors, windows, plumbing fixtures)
- Class III (earth & rock)

**Properly Managing C&D waste will decrease landfill use, & decrease the depletion of our natural resources.**

# C&D Management

Woodlawn C&D Landfill Operation:

Phone: (931) 956-2468

Mon—Thurs: 0730-1515

Friday: 0730-1130

Sat, Sun & Holidays:

Closed

➤ A landfill access pass is required for the use of the landfill. Access passes are obtained from Environmental Division Bldg 2186; Phone number: 270-798-9773.

**All landfill users shall make every effort to divert materials from the landfill through recycling and/or reuse of the materials.**

Soil Management:

Hauling soil? Call Mr. John Adams @ 270-798-0925 to obtain a soil hauling permit and location to place the clean soil.

Note:

1. Concrete & Masonry: Deliver maximum size debris of 24"x36"x18" to landfill for future grinding. Material must be free of contaminants (dirt, gravel, wood, etc..)
2. Materials not listed will be approved only by the landfill manager (956-2468) or Environmental Div. (798-9773)
3. The landfill manager has the authority to reject an entire load that does not meet the attached guidelines.

# C&D Management

## Woodlawn Landfill Acceptable Materials:

- All bldg materials (drywall, wood, tile, flooring, windows, doors, insulation, shingles, carpet)
- Plumbing materials
- Electrical materials, (except fluorescent tubes, ballasts and PCB containing materials)
- HVAC materials (except refrigerants/coolants, oils, mercury thermostats)
- Concrete, brick and masonry materials (24"x36"x18" or smaller- note these materials must be segregated from other materials)
- Miscellaneous materials:
  - Asphalt pavement,
  - Asbestos (from C&D projects, if properly containerized & documented, w/10 day notice)

## Unacceptable Material:

Cardboard, soil, compressed gas cylinders, tires, dead animals, household waste, lunch waste, recyclables, fluorescent lighting, POL products, automotive parts, liquids, hazardous waste, appliances, computer equipment, yard waste, tree stumps, trunks & branches, land clearing debris, crossties & utility poles
